LAWRENZ MATTHEW P. GARCIA

Valenzuela City, Metro Manila | lawrenzgarcia1202@gmail.com
linkedin.com/in/lawrenz-matthew-garcia-a84018222 | github.com/Renz5678

EDUCATION

Polytechnic University of the Philippines — BS Computer Science | Expected 2028

Cumulative GWA: 1.165 • President's Lister (1st and 2nd Year) • DOST-SEI Undergraduate Scholarship Awardee

Relevant coursework: Design and Analysis of Algorithms, Data Structures and Algorithms, Information Management, Object-Oriented Programming

General Tiburcio De Leon National High School — Junior High School - Senior High School | Graduated 2024

Valedictorian, SHS Batch 2023–2024 • Best in Science • Best in Work Immersion • Best in Research

TECHNICAL SKILLS

Languages: Python, Java, C++, C, JavaScript, TypeScript, SQL, HTML/CSS

Frameworks: React, React Native (Expo), Next.js, Express.js, FastAPI, Spring Boot, Tailwind CSS

Cloud, databases and tools: AWS Lambda, DynamoDB, Supabase, Docker, Git/GitHub, Vercel, Render, Cisco Packet Tracer

PROFESSIONAL EXPERIENCE

Hardy and Co. PH, LTD — Chief Technology Officer | Sep 2026–Present

Lead architecture and engineering of web, mobile, and AI-integrated systems, from backend services to cloud deployment.

Implement Docker-based deployment, CI/CD workflows, monitoring, and serverless infrastructure.

Coordinate engineering delivery and establish code review and software design practices across the development team.

Eskwelabs — Education Innovation Fellowship, Cohort 8 (Intern) | Oct–Dec 2025

Built n8n automation workflows for hackathon participant processing and personalized email communications, reducing manual operations by over 90%.

Integrated webhooks and APIs to streamline event updates, administrative workflows, and participant tracking.

SELECTED PROJECTS

NetForge — Network Topology Design Tool | May–Jun 2026

Built a React Native/Expo mobile tool for network topology design and simulation, using Skia, Zustand, and Supabase.

Implemented Dijkstra, A*, Prim, and VLSM algorithms for routing, validation, and network planning.

PUP Tulong — Serverless Student Task Platform | Jun–Aug 2025

Developed FastAPI REST services on AWS Lambda with DynamoDB for task posting, matching, and management.

Implemented Google OAuth authentication, OTP verification, and asynchronous notifications.

Hardinia — Plant Care Platform | Nov 2025–Jan 2026

Built a React/Vite frontend and Dockerized Spring Boot (Java 21) API deployed on Vercel and Render.

Implemented Supabase authentication, scheduled plant-care tasks, monitoring, and automated pest-alert emails.

ADA — Business Management Application | Jun 2026–Present

Developed order tracking, catalog search, and account security features, including responsive autocomplete and validation.

Tofu — Mobile Reading Tracker | Jun 2026–Present

Built a React Native/Expo reading tracker with Supabase and an aggregated Google Books/Open Library search and caching workflow.

LEADERSHIP & CAMPUS INVOLVEMENT

AWS Student Builder Group — PUP Manila, Associate Technology Director (Skill Builder Department) | Sep 2026–Present

Coordinate five technical learning tracks spanning web development, AI/ML, cloud, data analytics, and networking/security.

Support workshop roadmaps, project collaboration, technical recruitment, and department operations.

AWS Cloud Club PUP — Programs Committee Member | Apr 2025–Sep 2026

Organized technical learning events and provided audiovisual and program operations support.

JBECP PUP — Membership Committee Member | Aug 2025–Present

Maintained membership/activity records and represented the organization in inter-organization meetings.

CERTIFICATIONS

Cisco Networking Academy: Networking Devices and Initial Configuration; Endpoint Security (Jul 2025); JavaScript Essentials 1 (Aug 2025)

BPI DATA Wave 2025: Human-Centered Market Research & Ideation (Module 1); Solution Blueprint & AI Architecture (Module 2)

ADDITIONAL HONORS & PROGRAMS

Senator Win Gatchalian Academic Excellence Award • UPCAT Passer (AY 2025–2026)

DOST-SEI Scholars' Technopreneurship Training Program (STTP+) — National Participant (2026)

26th Philippine Mathematical Olympiad — Participant • KPMG/Microsoft Academic Innovation Challenge (2025)
